Hello World!

1 Diseases

These are of many types. Better get used to them. You are not going to do away with them anyway.

1.1 communicable-ones

These are the ones that you get from other people which fucking sucks.

1.2 non-communicable ones

And these are the ones you get on your own. Probably because you deserve it. May be because it is due to your poor health habits, or may be due to your

1.2.1 Chronic-ones

1.2.2 hereditary ones
